

LED description:
LED1 (GREEN) - LP5907 working;

The Bias Tee TCBT-14 + module can be replaced with a capacitor (BT) and inductor L(BT). If you want to use this solution, select the appropriate PCB:
Coax power supply, fixed voltage (SMD, ENCLOSURE): Main module (w/o TCBT-14+).
L(BT) = 100 uH, SMD 0805;
C(BT) = 100 nF, SMD 0805;
